

LOKESH KUMAR

Java Backend & Full Stack Developer

Andhra Pradesh, India | +91 7382931195 | lokeshkumar07012914@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

Computer Science undergraduate focused on **secure REST backends with Spring Boot, JWT, and OAuth2**, with hands-on React front-end experience. Currently building **Flash Sale**, a full-stack e-commerce platform, and strengthening problem solving with 140+ LeetCode problems in Java.

TECHNICAL SKILLS

Languages	Java, Python, C, JavaScript (ES6+), SQL
Backend & Security	Spring Boot, REST APIs, Spring Security, JWT, OAuth2, Spring Data JPA/Hibernate, Maven
Frontend & Web	React, Tailwind CSS, HTML5, CSS3, Web Storage API
CS Fundamentals	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS
Developer Tools	Git, GitHub, VS Code, Postman

PROJECTS

Flash Sale – Full Stack E-Commerce Platform (Ongoing)

[Live Demo](#) | [GitHub](#)

Java, Spring Boot, Spring Security, JWT, Spring Data JPA/Hibernate, MySQL, React, Tailwind CSS

- Building the **Spring Boot backend**: secure REST APIs with JWT authentication, refresh tokens, BCrypt password hashing, and role-based access for Customer and Admin users.
- Designing a relational **MySQL** schema (users, products, orders, cart, wishlist) with Spring Data JPA/Hibernate and a layered controller, service, and repository architecture.
- Delivered the **React + Tailwind CSS** frontend covering shopping, cart, wishlist, checkout, and an admin dashboard; deployed on Vercel.

Campus Placement Management System

Java, Spring Boot, Spring Security, JWT, OAuth2, MySQL, Git

- Built **RESTful Spring Boot APIs** that automate recruitment workflows, company job postings, and student application tracking.
- Secured the system with **Spring Security**, stateless **JWT** sessions, role-based authorization, and OAuth2 integration.
- Modeled entity relationships and persistence with Spring Data JPA/Hibernate on MySQL, with automated CRUD operations.

Employee Management System

[GitHub](#)

React, JavaScript, Tailwind CSS, HTML5, Git

- Developed a responsive **single-page application** in React and Tailwind CSS for employee record management and dynamic directory updates.
- Built modular React components with client-side form validation and state management; persisted data across sessions using the browser **localStorage** API, with no server required.

Data Structures & Algorithms Repository

[GitHub](#)

Java, Git

- Solved **140+ LeetCode problems** in Java across Arrays, Strings, Linked Lists, Trees, and Dynamic Programming.
- Documented time ($O(N)$, $O(\log N)$) and space ($O(1)$, $O(N)$) complexity for every solution.

EXPERIENCE

Python Full Stack Developer Intern | AICTE – EduSkills

April 2025 – June 2025 | Remote, India

- Built full-stack web application modules with **Python, SQL scripts, and RESTful routing** during a 10-week technical internship.
- Implemented client-side and server-side form validation and relational queries to manage backend data operations.
- Awarded **Outstanding (Grade O)** for performance in module assessments and practical project evaluations.

EDUCATION

Raghu Engineering College, Visakhapatnam

2023 – Present

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.2 / 10.0

CERTIFICATIONS

Java Programming & Data Structures
